

Hatchery Products

Feed, Zooplankton, Supplies for Finfish, Shrimp and Shellfish Hatcheries

FINFISH

Product	Description
INSTANT ALGAE®	

Rotifer Production and Enrichment: **RotiGrow®** (Frozen two-year shelf life, except *Chlorella*)

RotiGrow OneStep®	All-in-one feed with high DHA enrichment; microalgal blend
RotiGrow Plus®	All-in-one feed with moderate DHA enrichment; microalgal blend
RotiGrow Nanno®	Highest yield feed and enrichment; no DHA
Nanno 3600	20-year track record of performance, easy to use; only <i>Nannochloropsis</i>
Super Chlorella-V12™	Fresh, live, moderate rotifer enrichment; six-week shelf life

Greenwater: **RotiGreen** (Frozen and Refrigerated)

RotiGreen Nanno®	<i>Nannochloropsis</i> ; classic greenwater, high EPA, moderate ARA
RotiGreen Omega®	Balanced Blend of DHA, EPA and ARA algae
RotiGreen Iso®	<i>Isochrysis</i> ; high DHA, negligible EPA

LARVAL & WEANING FEEDS

Otohime	Premium Japanese larval and weaning feeds; 12 pellet sizes from 150 – 10,000 µm
----------------	---

ZOOPLANKTON

Copepods	<i>Apocyclops panamensis</i> ; Nauplii: 70 – 100 µm; Adults: 600 – 700 µm
	<i>Parvocalanus crassirostris</i> ; Nauplii: 40 – 90 µm; Adults: 200 – 400 µm
Rotifers	<i>Brachionus plicatilis</i> ; L-Type: 165 µm mean lorica length
	<i>Brachionus</i> sp; S-Type: 90 µm – 150 µm lorica length

(See other side for supplies)

Hatchery Products

Feed, Zooplankton, Supplies for Finfish, Shrimp and Shellfish Hatcheries

BIVALVES

Product	Description
INSTANT ALGAE®	
Shellfish Diet®1800	100% live algae replacement or supplement; 1st feeding through nursery and broodstock
Nanno 3600	<i>Nannochloropsis</i> ; Effective for mussels; sometimes used with other bivalves
Tet 3600	<i>Tetraselmis</i> ; Nutritional supplement
Iso 1800	<i>Isochrysis</i> ; Basic feed; 100% replacement or supplement
Pav1800	<i>Pavlova</i> ; Basic feed; 100% replacement or supplement
TP 1800	<i>Thalassiosira pseudonana</i> ; Basic feed; 100% replacement or supplement

SHRIMP

Product	Description
INSTANT ALGAE®	
Shellfish Diet®1800	100% live algae replacement; peak load supplement and nutritional supplement
Tet 3600	<i>Tetraselmis</i> ; Feed stimulant and nutritional supplement
TW 1800	<i>Thalassiosira weissflogii</i> ; Base feed; 100% replacement and peak load supplement
TP 1800	<i>Thalassiosira pseudonana</i> ; Basic feed; 100% replacement or supplement

Individual Algae Species

Product	Description
INSTANT ALGAE®	
Nanno 3600	<i>Nannochloropsis</i> ; frozen and refrigerated; used for finfish and shrimp
Tet 3600	<i>Tetraselmis</i> ; frozen; used for bivalves and shrimp
Iso 1800	<i>Isochrysis</i> (Tahitian strain); refrigerated; used for finfish, bivalves and shrimp
Pav 1800	<i>Pavlova</i> ; refrigerated; used for finfish, bivalves and shrimp
TW 1800	<i>Thalassiosira weissflogii</i> ; refrigerated; used for bivalves and shrimp
TP 1800	<i>Thalassiosira pseudonana</i> ; refrigerated; used for bivalves and shrimp

Supplies

AMMONIA CONTROL & PRODUCTION SUPPLIES	
ClorAm-X®: Ammonia neutralizer	Rotifer Floss: Removes solid waste from rotifer cultures
Peristaltic pumps and tubing	Low-shear feed bucket mixing pumps
Compact Culture System™ (CCS)	Zooplankton Harvest Sieves
